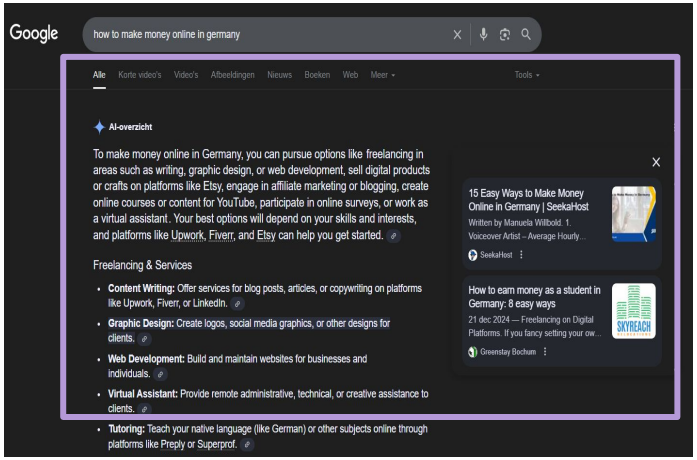
GREENSTAY
AMSTERDAM SHORTSTAY

Increased leads (+300%) with reduced cost of acquisition (-62%)

Greenstay, a short-term housing business, had no SEO efforts in place. With search traffic untapped, they partnered with us to build their online presence and convert visibility directly into housing bookings.

What we did

- **Technical & structural optimization:** Improved the site's foundation for SEO, usability, and indexing.
- **Landing pages:** Built and optimized city-specific pages targeting local housing demand.
- **Content setup:** Created blog and archive pages, and published tailored articles aligned with student and expat needs.
- **Conversion tracking:** Integrated inquiry forms with clear goals, turning visibility into measurable leads.



"With a 13% conversion rate, Green Stay outperforms the industry benchmark of 4%, more than 3x higher."
