

ESVE Groep

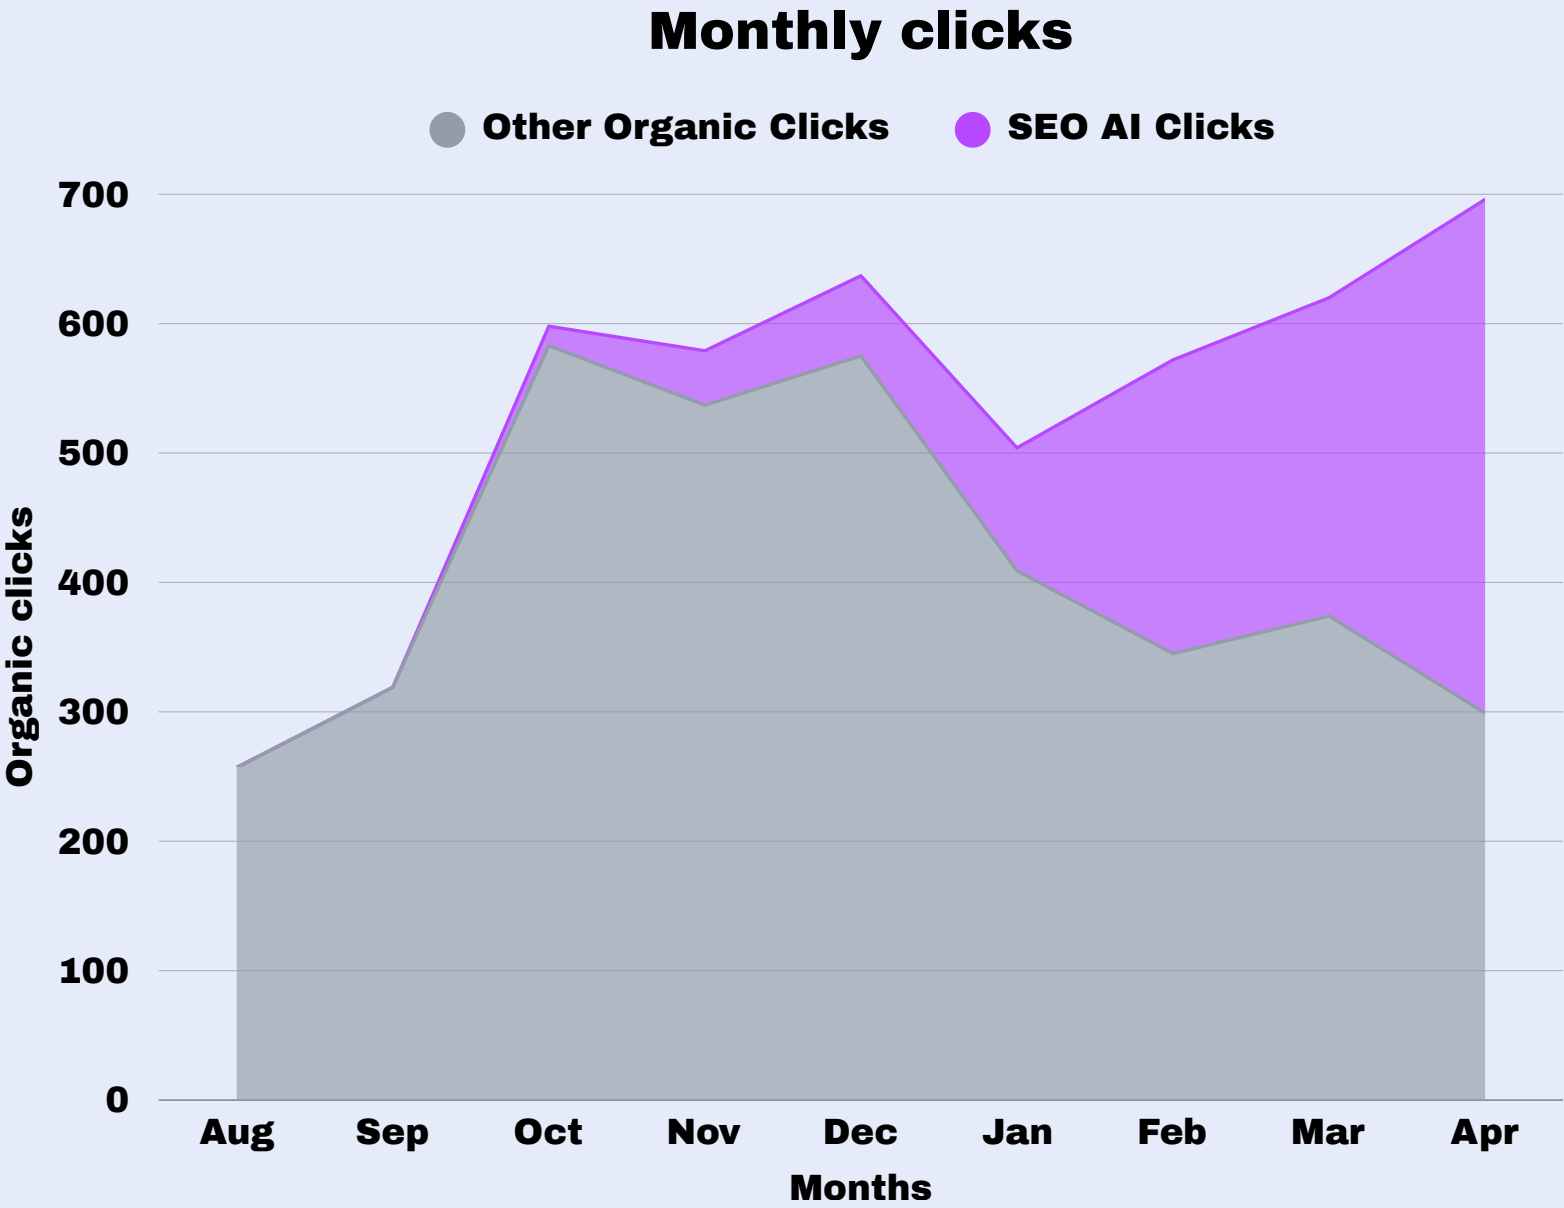

From 3 years of traffic decrease to +118% increase in organic traffic with WP SEO AI

ESVE Groep is a Dutch HR and payroll services provider supporting businesses across Brabant and Limburg. With expertise in AFAS, NMBRS and Loket, they help organisations simplify payroll and move toward scalable, recurring service models.

In 7 months, WP SEO AI helped ESVE Groep build a new non-brand discovery channel from zero and fully reverse a 3-year decline in organic traffic.

- +118% growth in organic clicks (319 → 696)
- +485% increase in total impressions in 7 months
- 57% of all clicks now generated by AI-powered content
- +3000% growth in Top 1–3 Google rankings

"Our collaboration with WP SEO AI is personal and effective: every six weeks we meet online to discuss improvements, and in between our dedicated contact is always easy to reach. Our online visibility is growing noticeably!"

Marlou Janssen, Medewerker Bedrijfsvoering at ESVE groep

Challenge - Visibility in a rapidly growing sector

ESVE Groep wanted to become the leading payroll processor in Brabant through AFAS, NMBRS and Loket, while shifting from project-based revenue to stable recurring income.

With a small team focused on client delivery, SEO was difficult to prioritise. Organic traffic was declining, and visibility relied mostly on branded searches, limiting new client discovery. ESVE Groep needed a sustainable SEO strategy to grow non-brand visibility and attract payroll clients directly.

WP SEO AI's - Approach

WP SEO AI implemented a focused content strategy targeting high-intent payroll questions, including outsourcing payroll administration, salary processing, and software expertise around NMBRS, Loket and YouForce.

WP SEO AI managed content creation and publishing through AI-driven automation, supported by six-weekly strategy sessions and quick iterations.

This allowed ESVE Groep to grow non-brand visibility efficiently without adding extra workload to the internal team.

WP SEO AI's - Impact

-  57% of all clicks now come through the SEO AI channel
-  Top 1–3 Google rankings exploded from 421 to 12.911 (+3000%)
-  Strong visibility in AI overviews and ChatGPT for highly relevant search intents.
-  ESVE Groep built an entirely new traffic channel from zero within 7 months. The SEO AI channel now accounts for more than half of all clicks and nearly 9 in 10 impressions — a fundamental shift in how the site generates traffic.

AI overview mentioning

 Screenshot showing Google ranking the company high in Google AI Overviews.

 This demonstrates that Google’s generative search recognizes their content as an authoritative and trustworthy source.

Wat kost salarisadministratie uitbesteden voor kleine bedrijven?

De kosten voor het uitbesteden van salarisadministratie voor kleine bedrijven in Nederland liggen best uiteen, maar je kunt het vrij goed inschatten met een paar richtlijnen 📌

💰 **Gemiddelde kosten (praktisch overzicht)**

Per medewerker per maand:

- €10 – €16 → basis (alleen loonstroken en aangifte) van Winssen
- €15 – €50 → gangbare range voor kleine bedrijven ESVE Groep
- €25 – €45 → bij iets uitgebreidere dienstverlening Betaalze
- €50 – €100 → bij complexe situaties of full-service AAB Finance

👉 In de praktijk zit je meestal rond **€15 – €30 per medewerker per maand** voor een “normale” mkb-situatie.
