

Taalklasse

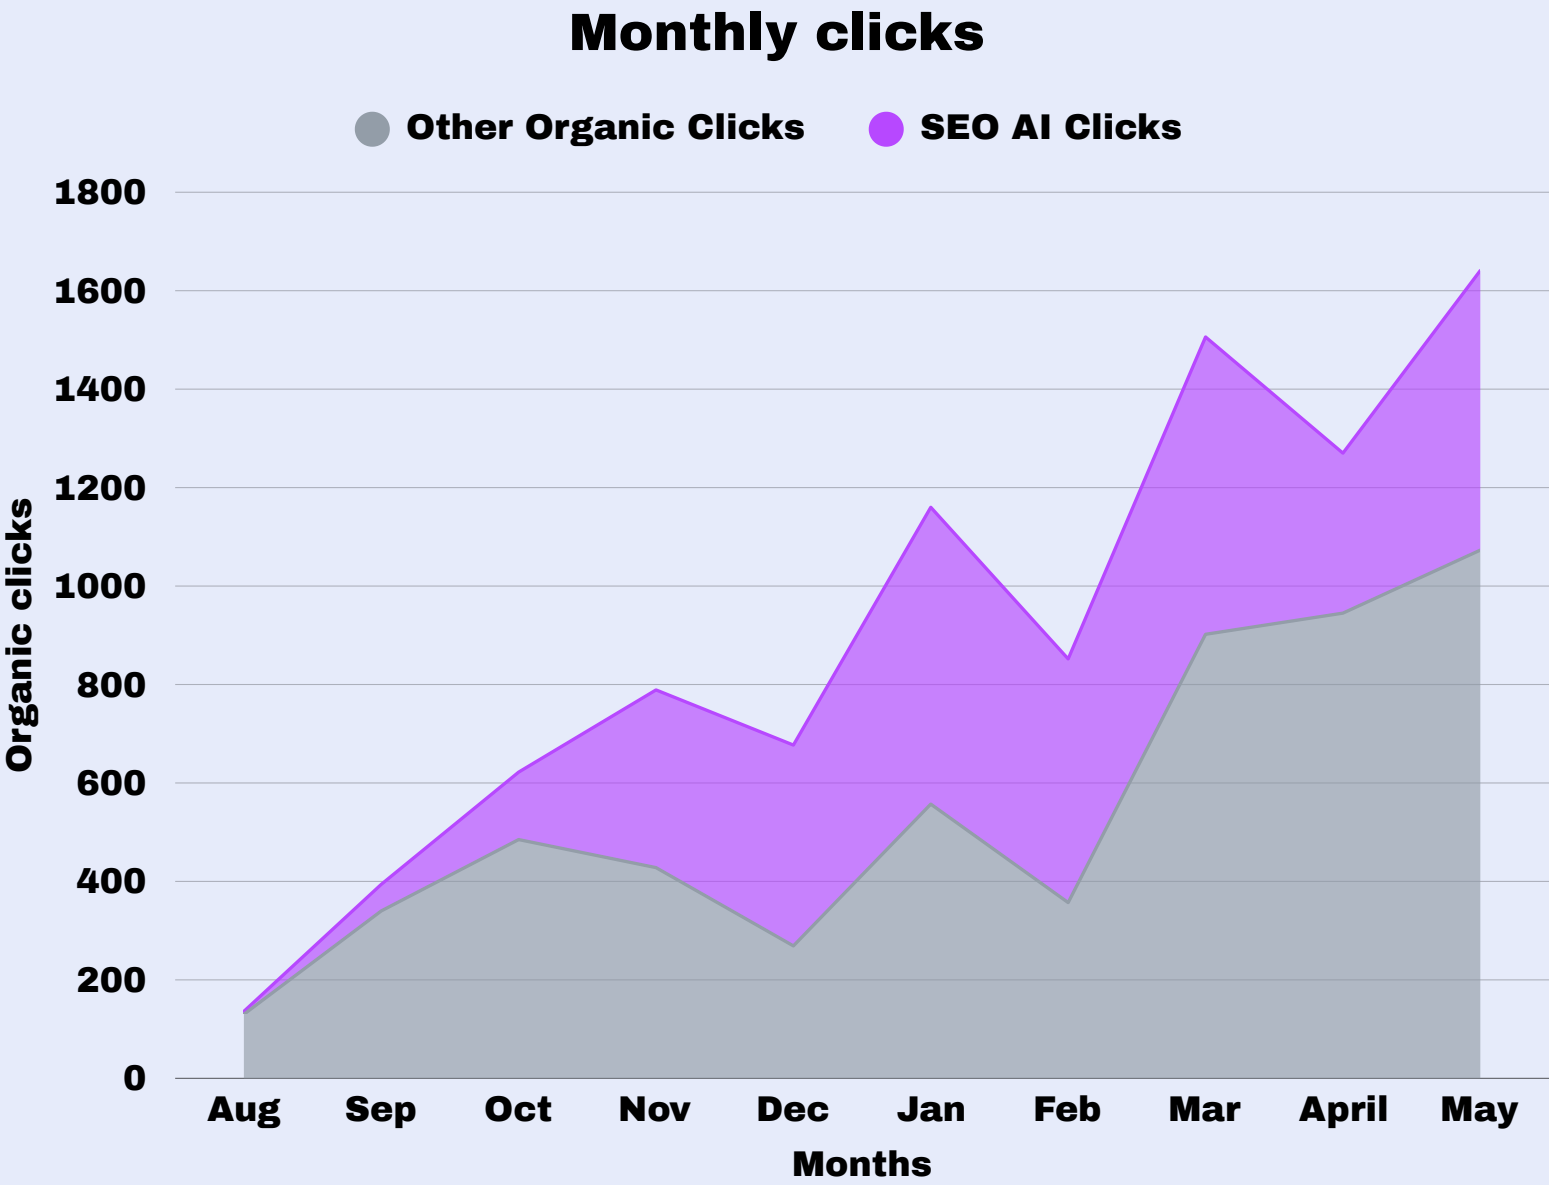

Gaining +732% click growth as a small start up in a competitive market

Taalklasse is a Dutch publishing and ed tech company offering an integrated language and reading curriculum for primary schools. Their core product, the Methode Nederlands, combines reading, writing, speaking, listening, vocabulary, and grammar into one cohesive method, built around rich texts and quality children's literature developed in partnership with over 50 well-known Dutch children's authors. Their mission is to make every child literate and to bring the joy of reading back to the classroom.

- Taalklasse partnered with WP SEO AI, publishing 20 blogs per month
- Got first leads through ChatGPT and Google
- Within 7 months, Taalklasse gained 700 monthly clicks

“WP SEO AI is a very welcome addition and an important part of our content marketing strategy. Even for us as a startup. After just the first few months, we've already created a lot of beautiful and relevant content. This has led to many additional site visits. The support provided by WP SEO AI along the way has been excellent.”

Willem Hajer, Marketing and Sales Support at Taalklasse

Case Study

Challenge - New product in a competitive market

Operating in the competitive B2B education market as a relatively new entrant, Taalklasse faced the task of building credibility and trust from the ground up. Their product is forward-thinking and grounded in strong scientific, practical, and didactic foundations, but that depth of thinking wasn't yet visible to the outside world.

The core challenge: how do you communicate not just what Taalklasse offers, but why it was built the way it was, and why that matters? Potential clients needed to understand the reasoning, the research, and the methodology behind the solution before they could truly appreciate its value.

Content marketing became the vehicle of choice, a way to share knowledge, demonstrate expertise, and let the story speak for itself to an audience that values substance over sales.

WP SEO AI's - Approach

We developed a data-driven topical cluster strategy focused on all questions and search intents related to language development, reading and writing skills, core educational objectives, and the importance of reading for young people. The target audience written for are teachers who are responsible for finding new teaching methods.

We delivered 20 SEO-optimized blogs to create a strong foundation. Our tracking and testing features allowed us to analyze which articles generated traction and engagement, enabling continuous optimization.

WP SEO AI's - Impact

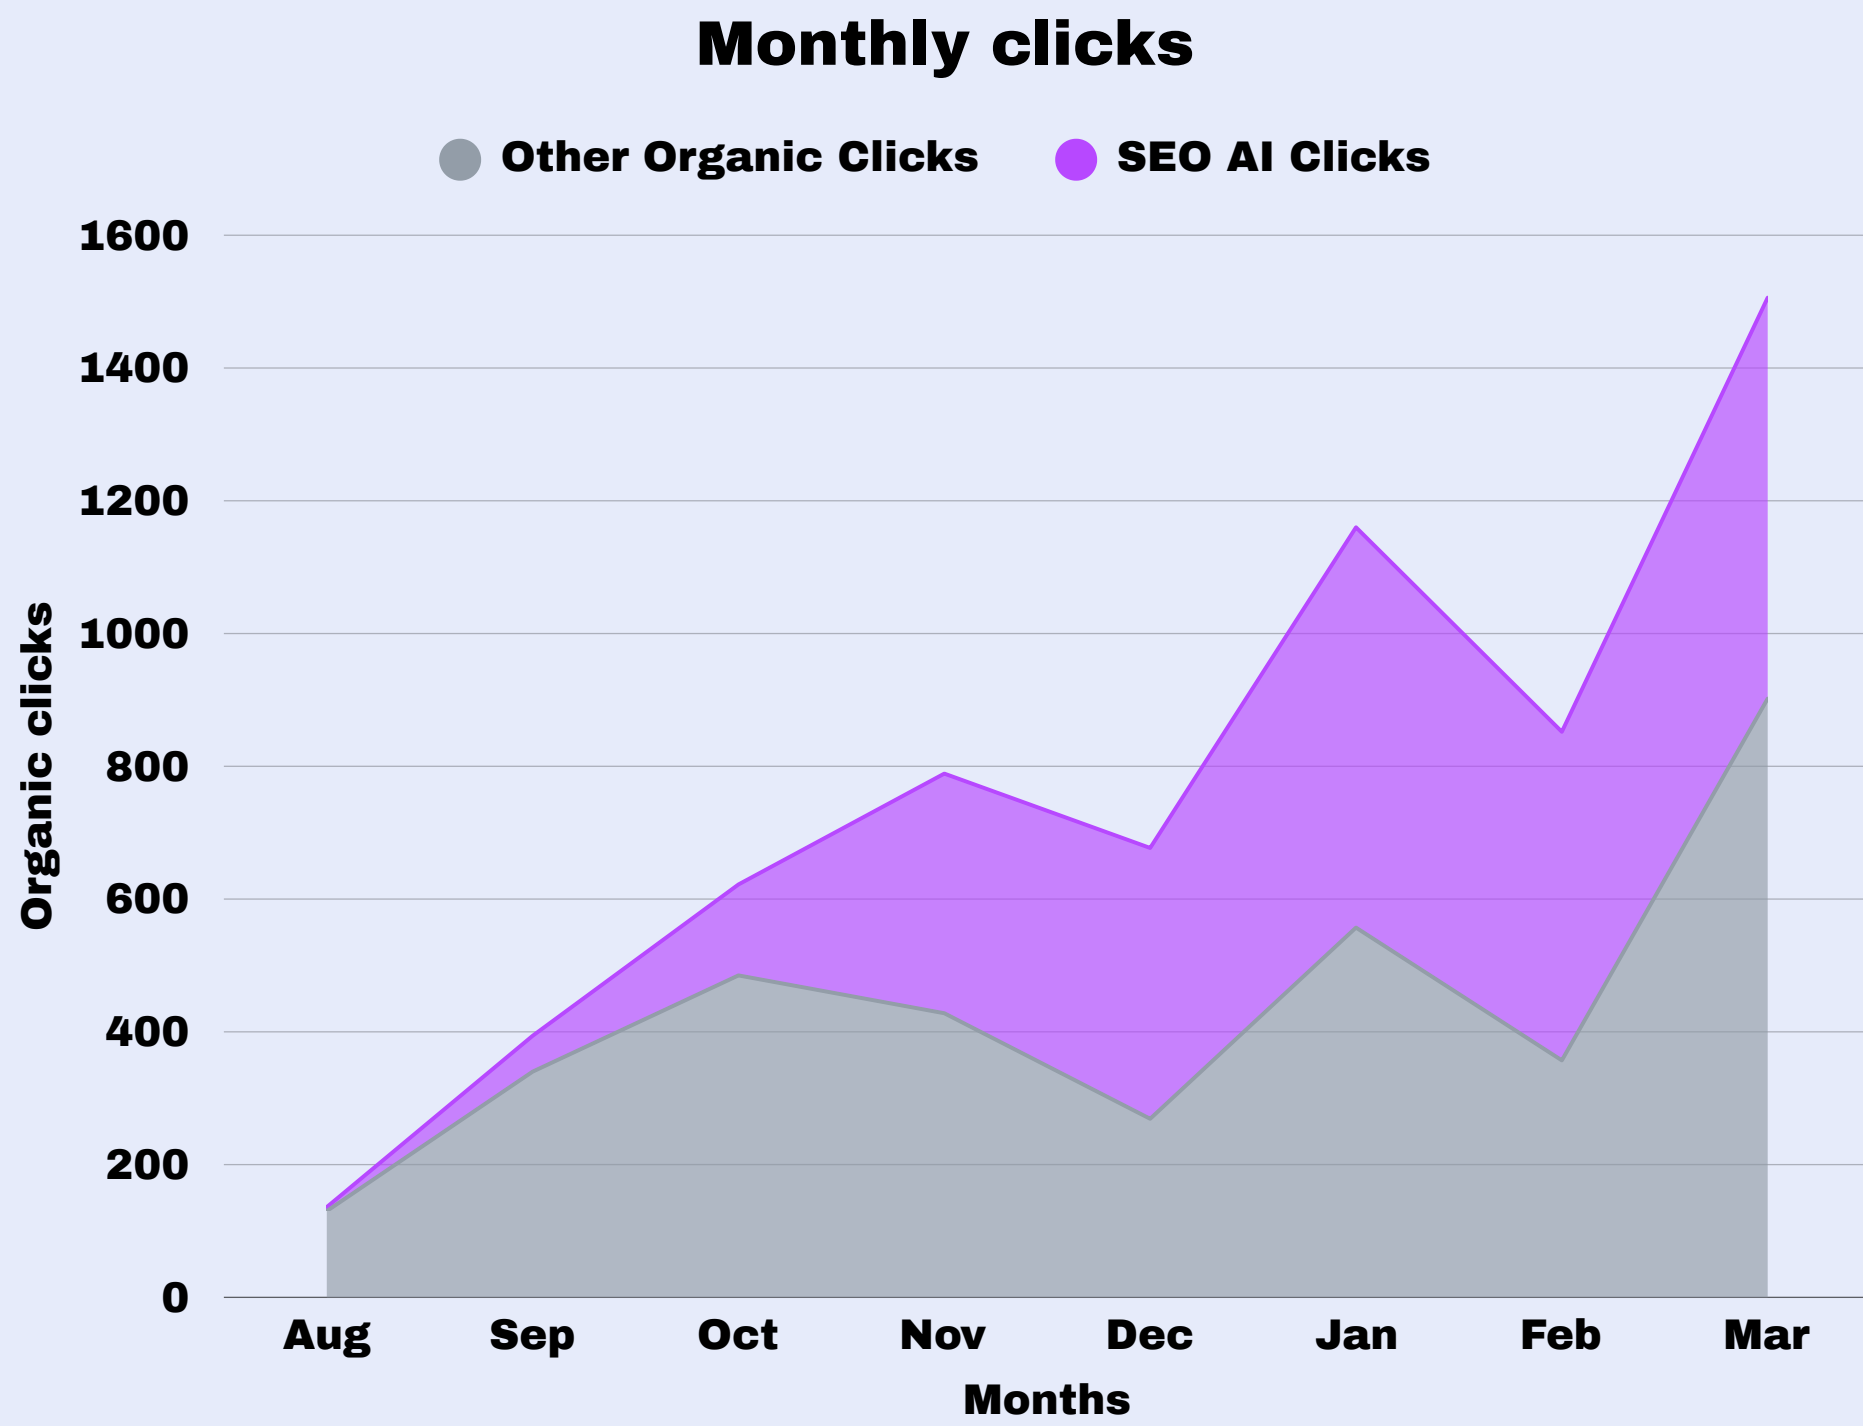

-  Within 7 months, Taalklasse's organic traffic grew from 136 to 1160 monthly visitors
-  With over 600 clicks per month coming from WP SEO AI content alone
-  The growth curve has been steady and continues to rise, proving the effectiveness of a structured and scalable SEO approach
-  They have received their first leads through the WP SEO AI blogs. Some found the blog via Google and some via ChatGPT. They consistently ask this whenever an inquiry is received.

 **From 136 → 1160 Monthly Clicks; Organic Growth Rooted in Data**

Als leraar Nederlands op een basisschool in Amsterdam wil ik kinderen beter leren schrijven. Waar kan ik daar meer informatie over vinden?

Als je als **leraar Nederlands op een basisschool in Amsterdam** kinderen beter wilt leren schrijven, zijn er in Nederland een aantal goede bronnen met **didactiek, lesmateriaal en onderzoek**.

1. SLO

De **SLO** ontwikkelt en beschrijft de landelijke **kerndoelen voor taal en schrijven** in het basisonderwijs. Hier vind je:

- leerlijnen schrijven van groep 1 t/m 8
- voorbeelden van schrijfp opdrachten
- didactische uitleg over schrijfonderwijs

Dit is een goede plek als je wilt weten **wat leerlingen precies moeten kunnen op elk niveau**.

Website: <https://www.slo.nl> ➤

2. Expertisepunt Nederlands

Dit platform verzamelt **praktische kennis en onderzoek over taalonderwijs**.

Je vindt er:

- strategieën voor beter schrijfonderwijs
- artikelen over effectieve schrijfdidactiek
- voorbeelden van lessen en aanpakken

Website: <https://www.expertisepuntnederlands.nl> ➤

3. Stichting Lezen

Veel onderzoek laat zien dat **goed lezen sterk samenhangt met beter schrijven**. Stichting Lezen biedt:

- projecten voor lezen en schrijven in de klas
- boekentips
- inspiratie voor taalactiviteiten.

Website: <https://www.lezen.nl> ➤

4. Taalklasse

Taalklasse ontwikkelt lesmethodes die **lezen en schrijven combineren**.

Kenmerken:

- thematische lessen (ongeveer 8 weken per thema)
- schrijven geïnspireerd door kinderboeken
- lesmateriaal en training voor leerkrachten
