"We're very satisfied with WP SEO AI so far. Hidde is proactive, thinks along with us and offers personal, hands-on support. The tool gives us valuable insights into keywords, website speed and other SEO factors, and even in a short time we're already seeing positive results and look forward to more."

Challenge - Limited marketing capacity

The company had an in-house marketing team but lacked the capacity to develop and execute a full SEO strategy for sustainable traffic and visibility growth. They were looking for a partner that could automate these processes.

Additionally, they recognize the growing impact of AI on search behaviors and platforms. They were eager to adapt to this shift and prepare for the future, where AI-driven search will continue to gain momentum.

WP SEO AI's - Approach

We delivered 110 blogs in 5 months, focusing on their core topics: "high pressure water jetting" and "surface and tube cleaning."

The content targeted common questions from their audience using People Also Asked (PAA) content. We provided English-language content to attract their international target audience, helping to build authority around their core business and expertise.
