

De Woonzaken

From local expertise to 6x more organic traffic

De Woonzaken, a Heemskerk-based interior specialist, wanted to grow its regional visibility beyond its existing local network.

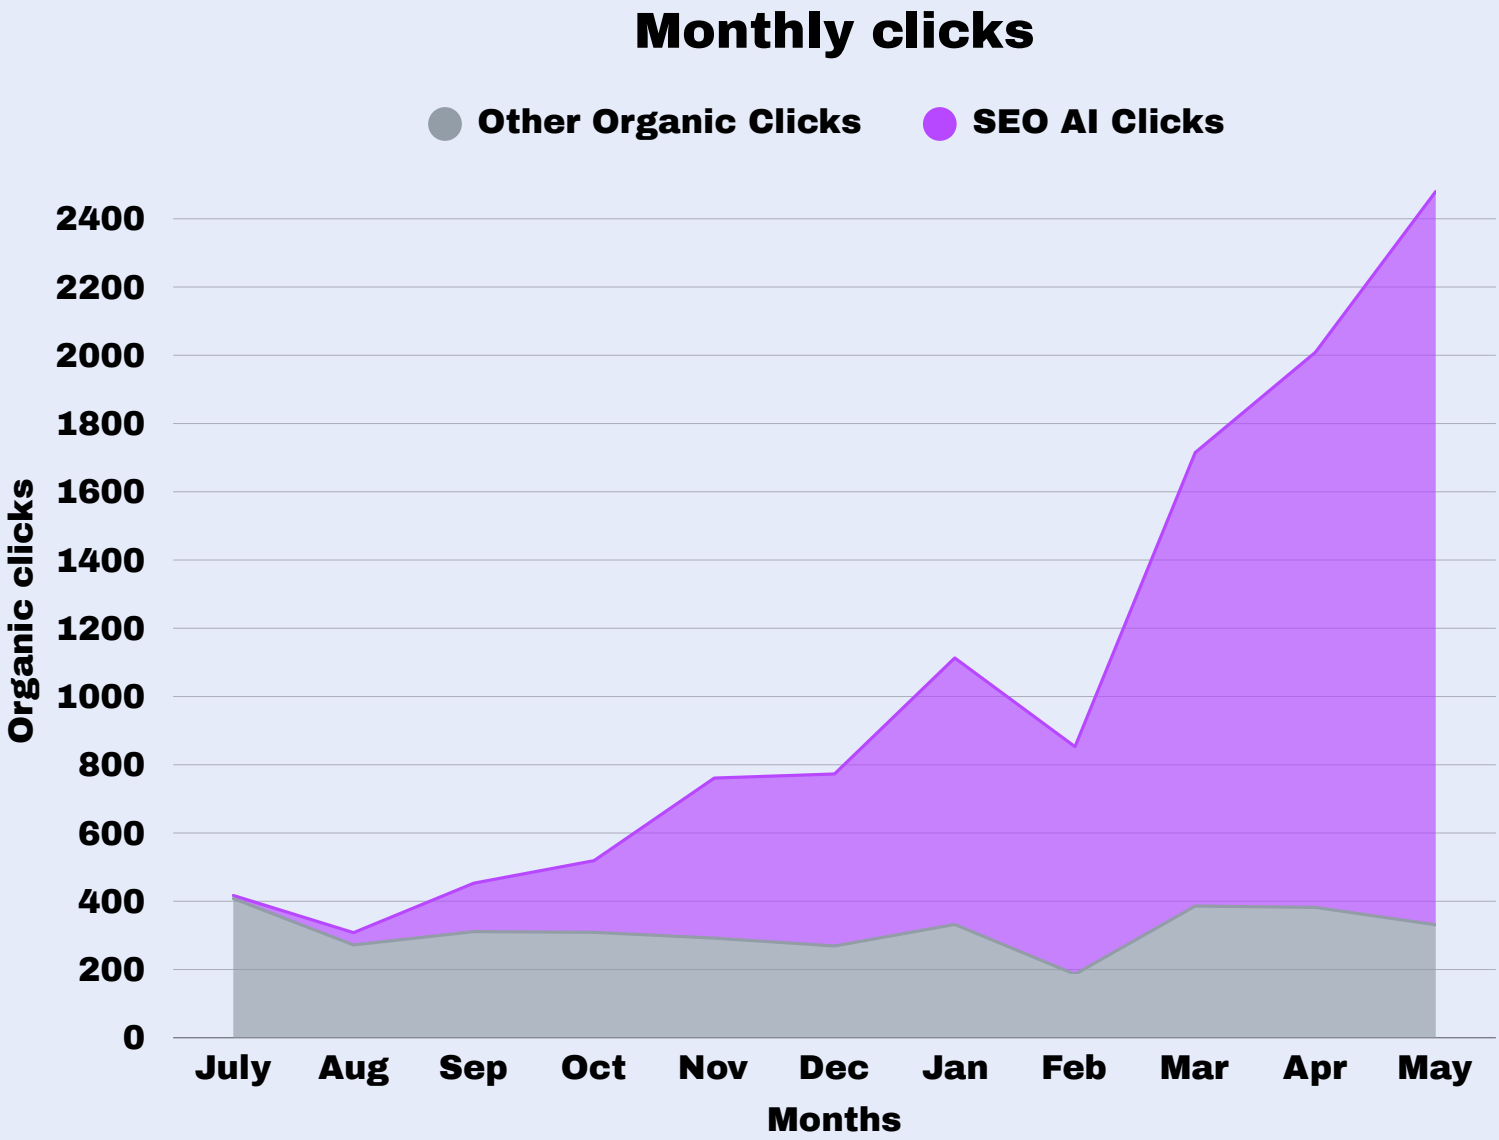

WP SEO AI developed a scalable SEO strategy focused on interior products, customer questions, and local search topics, helping people find trustworthy advice online.

In 11 months, organic clicks grew from 417 in July to 2,480 in May (+495%), giving De Woonzaken a stronger regional digital presence.

“Very satisfied with the collaboration. We have been going for almost a year now and are seeing, as promised, extreme growth in organic traffic. Special compliments to our customer success managers Kayleigh and Evelyne. They are proactive and very involved in the implementation, realization, and optimization!”

Alex de Ruijter - De Woonzaken

Case Study

Challenge - Efficiency Gap

De Woonzaken, a Heemskerk-based interior specialist, wanted to attract more regional customers and strengthen its online authority, but lacked the time and content capacity to do so.

With a small team focused on showroom advice, customer projects, and daily operations, SEO content was difficult to produce consistently. Their expertise was already strong offline, so De Woonzaken sought a scalable SEO strategy to turn that knowledge into regional visibility and reach new customers directly.

WP SEO AI's - Approach

WP SEO AI implemented a customer-focused content strategy targeting practical, search-driven questions around interior products, home improvement, and regional living solutions.

WP SEO AI managed content creation and publishing, while De Woonzaken provided input where needed to keep articles accurate and aligned with their expertise and handled optimisation of the content.

This allowed the company to scale regional visibility efficiently without diverting resources from showroom advice, customer projects, or daily operations.

WP SEO AI's - Impact

-  Total organic clicks increased from 417 to 2,480, adding 2,063 extra monthly clicks and creating almost 6x more organic traffic in 11 months.
-  SEO AI clicks grew from 9 in July to 2,149 in May, a 23,778% increase, and now account for 86.7% of all monthly organic clicks.
-  Across the full period, SEO AI content generated 7,923 clicks, showing that marketing has become scalable, measurable, and less dependent on limited internal capacity.
-  The content also improved AI visibility, with De Woonzaken appearing in ChatGPT, Google AI Mode, and Google AIO results.
