"With SEO AI, we've gained more than technology — we've gained partners who innovate, advise, and understand our needs." — William, Managing Partner

QUEST
SEARCH AND SELECTION

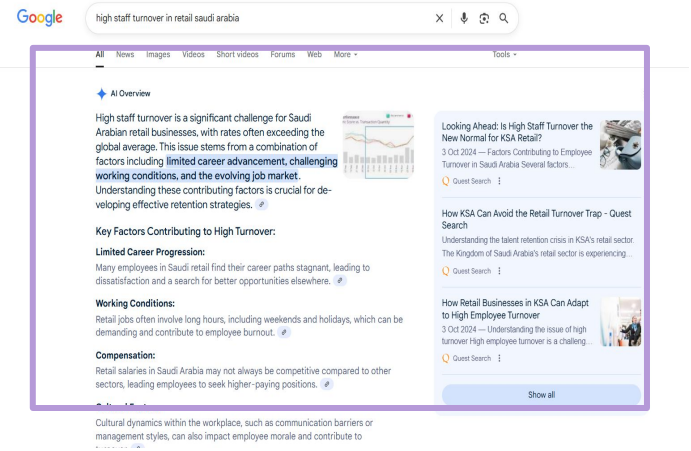
From Hidden to #1: Organic Traffic Exploded with 775% Growth

Quest Search and Selection, a recruitment agency, struggled to bring in organic traffic to their website. Despite knowing SEO was key for growth, they lacked the content strategy to capture relevant searches. They partnered with us to turn search visibility into quality candidate and client leads.

What we did

- **Content around all aspects of recruiting:** Built strong authority by creating high-quality content that covered every stage of the recruitment process.

- **Publish industry insights:** Shared SEO-driven articles answering common employer and candidate questions to capture relevant search demand.



By building topical authority, Quest now dominates AI Overviews ,appearing above #1 rankings with multiple articles in a single result
