Medici

+253% More Organic Clicks in 5 Months with AI-Powered Content

Medici Vermittlung is a specialized German recruitment agency for doctors and medical professionals. To reach more physicians and clinics organically, they wanted to expand their online visibility in a targeted and scalable way.

WP SEO AI developed an automated SEO strategy around search topics related to physician recruitment and medical staffing, building topical authority without creating additional internal workload.

Within five months, organic clicks increased from 826 to 2,912 (+253%), with AI-generated content already accounting for 82% of total traffic in February.

Case Study

Challenge - SEA-Costs not sustainable

Medici Vermittlung had very limited organic visibility and fewer than 900 monthly clicks, most of them coming from direct or branded traffic. Without a content or SEO strategy, the website remained largely invisible for important search queries used by doctors and healthcare institutions.

Although they worked with an external web agency, SEO was not covered, and internally there was a lack of time and resources for research, content creation, and building topical authority. They therefore needed a scalable solution that could generate sustainable visibility without placing additional strain on the team.

WP SEO AI's - Approach

WP SEO AI implemented an automated SEO strategy to build topical authority in the areas of physician recruitment and medical staffing. To achieve this, the content funnel was systematically expanded with both informational and decision-stage content.

Over the course of five months, WP SEO AI published 196 articles and handled keyword research, content creation, and on-page optimization without any manual effort required from the Medici team. This created a fully automated SEO process that also increased Medici's visibility in Google's AI Overviews.

WP SEO AI's - Impact

- Organic clicks increased by +253% within five months, rising from 826 to 2,912
- After five months, 82% of total traffic was already coming from SEO AI content
- Impressions grew by +551% over the same period, increasing from 31,626 to 205,824
- Medici Vermittlung also became visible for key medical search queries in Google's AI Overviews
