

Facet Trainingen

From limited SEO capacity to +172% organic growth in 10 months

Facet Trainingen, a training company for healthcare and special education, wanted to grow beyond its existing network and attract new clients online without losing the strong relationships it had already built.

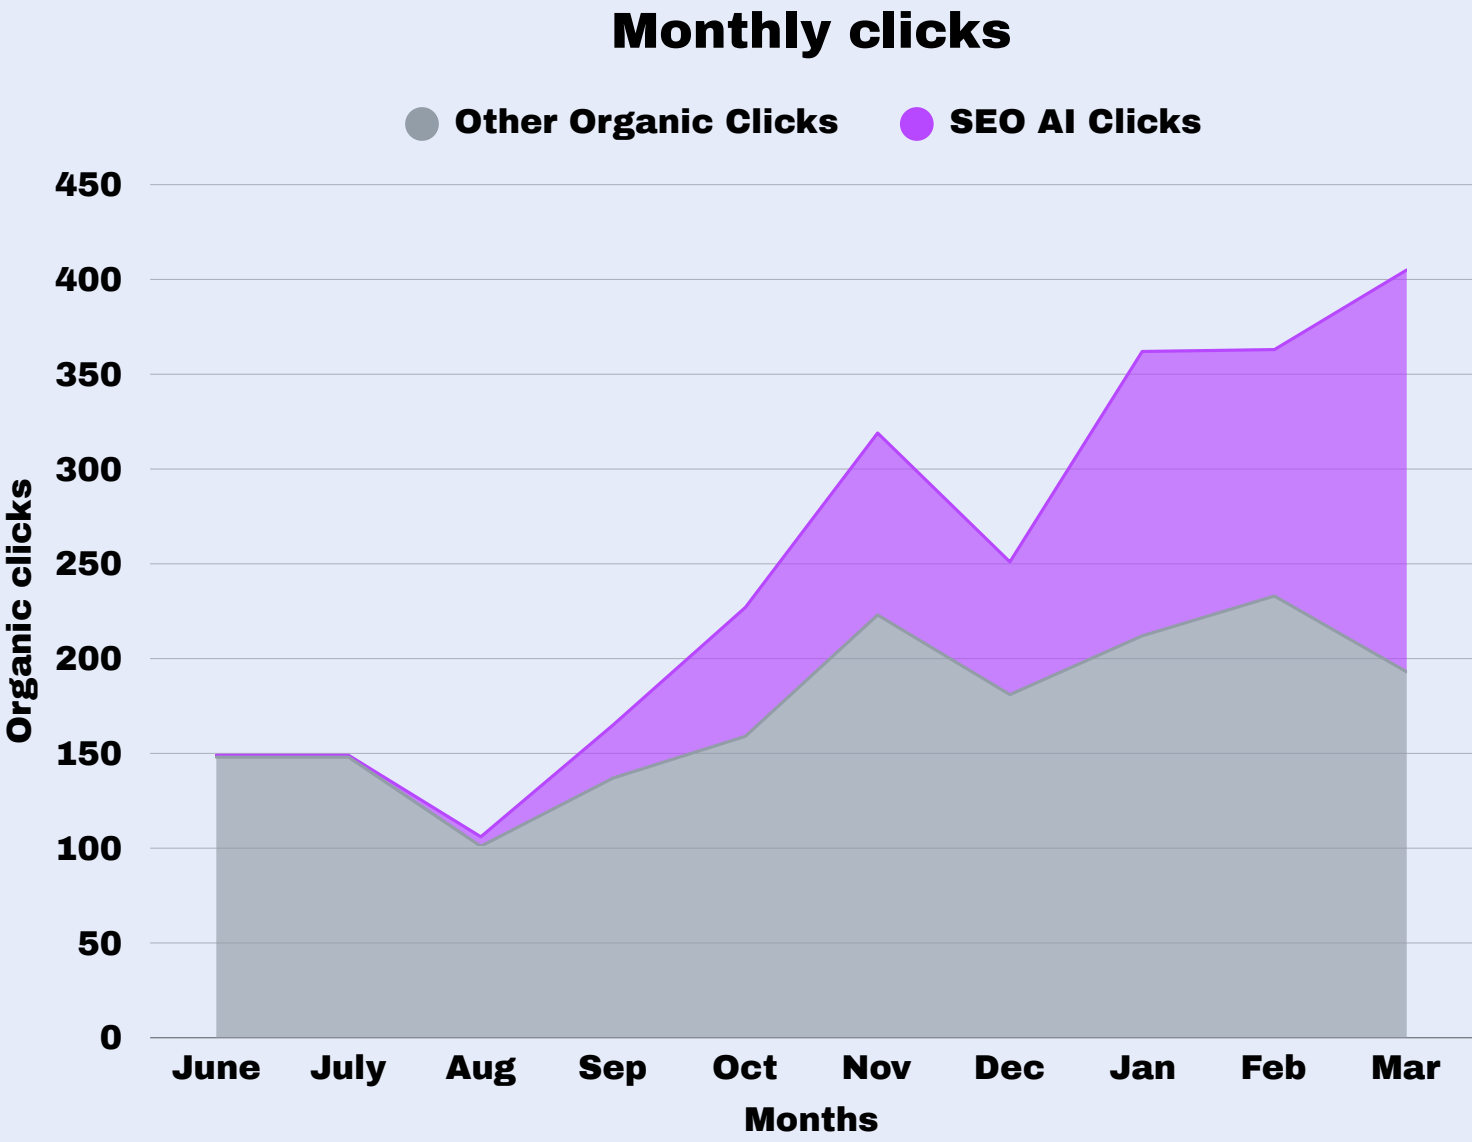

WP SEO AI created a focused SEO strategy around topics like aggression prevention and challenging behaviour, helping the company build authority in Google and AI-powered search.

In 10 months, organic clicks grew from 149 in June to 405 in March (+171.8%), giving Facet Trainingen stronger visibility and bringing in new leads.

“We notice the results through the extra visitors to our website, which have increased significantly in recent months. The combination of our own social media content and the blogs from WP SEO AI is helping our customer base grow, and we are receiving new enquiries from other organisations.”

Jolanda van Wijk, Owner of Facet Trainingen

Case Study

Challenge - Efficiency Gap

Facet Trainingen is a small, owner-led company. Jolanda manages the business and delivers all training alongside 18 freelancers. After taking over the business several years ago, Jolanda set her sights on growth beyond her existing network.

Her goal was to increase online visibility and attract new leads from outside her current circle. At the same time, she was keen to hold onto the relationships and clients she had already built. Expanding the network, without losing what was already there.

WP SEO AI's - Approach

WP SEO AI built a focused content strategy around aggression prevention and challenging behaviour in elderly care and disability care, delivering around 130 posts.

This helped Facet Trainingen achieve the number one position for aggression prevention, gain rankings for challenging behaviour, and generate possible leads through Google and AI Overviews. Because WP SEO AI managed the process efficiently, the owner achieved strong visibility growth without having to invest too much time.

WP SEO AI's - Impact

-  WP SEO AI gave Facet Trainingen a scalable engine for visibility and lead generation.
-  By March 2026, our blogs generated 54.3% of organic click share, showing clear business impact beyond rankings alone.
-  Over 10 months, organic clicks increased from 149 to 405 (+171.8%) and keyword visibility grew from 686 to 4,446 (+548.1%).
-  The company also became highly visible in Google, AI Overviews, and ChatGPT for relevant search intent, attracting the right audience to the website.
